

New from Infinity Publishing, a writer's companion. . .

Pull up a stool at the counter or find your favorite table by the window.

Creative writing is a solitary — sometimes lonely — task, but at the **Writer's Coffee House**, you're among friends.

With humor and pathos, twenty-two published writers share their personal experience, practical advice, and encouragement.

From the "Top Ten Ways to Make Your Writing Life Sizzle" to "Earning the Right to Be Read," this anthology of prose and poetry will be your companion and guide on the writing journey. Learn why you shouldn't fear failure, how to survive rejection, how to make more time for writing, how to tame the revision monster, and how to write with vision.
